 IE Decision Maker

### Query 1

Records evidencing the overall total cost of the construction of Kishogue Rail Station at Lucan, Co, Dublin including all external roads and carparks

See attached scan of the final payment certificate for KRP Main Contract 2. The site for Contract 2 was over 6km in length. The scope of the contract included Kishogue station as well as earthworks, drainage, fencing, bridge demolition and construction, construction of a lineside maintenance road and a new signalling building. We have broken out the cost of the station alone. This is estimated at €6.094m (incl VAT).

We subsequently built an additional platform at Kishogue station through a contract valued at €259,252 (incl VAT). See Final Payment Certificate attached. The grand total for the station was therefore €6.35m.

Note that we also built a temporary access road and car park under a separate contract. This cost €255,702 (incl VAT). See Final Payment Certificate attached.

(all docs detailed above enclosed in Appendix 1 – estimate cost for indiv parts of works have been redacted due to commercial sensitivity – S36 FOI Act 2014)

### Query 2

Records evidencing the specific cost of the surfacing of external roads and carparks as part of the construction of Kishogue Rail Station (in the period around 2006-2008);

All costs have been contained in the response of query 1.

### Query 3

A report on the damage that was done to the surface of external roads and carparks at Kishogue Rail Station due to their use, in 2010, for storage of ballast and/or any other construction and maintenance material to facilitate works to renew pre-existing tracks on the new four track rail section between Inchicore and Hazelhatch; and any assessment/survey carried-out into the costs or other implications of this damage.

We have been unable to identify any such report as detailed above. Would you have more information in relation to this report?

Query 4

Records evidencing the costs, since 2008, relating to contracts for the regular maintenance and/or repair of the station building, its lifts, its alarm system and any others elements of the Kishogue Rail Station property;

Please find table detailing summary of works done in Kishogue since 2011 below.

Query 5

All records, including submissions, reports and internal and external correspondence since 2012, relating to proposals to open Kishogue Rail Station to facilitate the stopping of services using the reopened Phoenix Park rail tunnel.

Please see Appendix 2 attached.
