The issue of safety and security on our public transport services is one of keen interest to our customers, our employees, and the wider public.

While anti-social behaviour is a societal issue, and the overwhelming majority of journeys occur without incident, we must ensure that we are providing the safest possible travelling and working environment for customers and employees, respectively.

To bring greater transparency, clarity, and context to the issue of anti-social behaviour, we will now publish – on a quarterly basis – a safety and security report. This report will consist of:

- Our statistics on reportable (to the NTA) and non-reportable criminal and anti-social behaviour incidents per quarter
- A full schedule of incidents included in those statistics.
- Analysis of any notable trends within the statistics
- Overview of initiatives within each quarter to improve safety and security, including joint initiatives with An Garda Síochána and other agencies.

**\*\*Note: IÉRU track all ASB incidents on our live AIMS system. All incidents are recorded and tracked by date of incident and not date of reporting. This can lead to differentials between figures in above table and figures previously reported. This is due to ongoing review of data that may lead to recategorisation, and reports received after the time of quarterly reports being published.**

#### Services overview.

Passenger journeys are continuing to grow significantly, with full year 2025 figures up 8.5% over the previous 12 months.

Iarnród Éireann introduced further timetable frequency increases in late August 2024, with Galway, Waterford and Cork Commuter services expanding. Additional Belfast services followed in October, demand for all service modes – Intercity, DART and Commuter – are now exceeding previous record highs.

A fare determination by the National Transport Authority was implemented in April 2025, which saw fares changes in the Dublin Commuter Zone. This represented a combination of reductions and increases, dependent on fare zones.

Note on Reportable and non-reportable.

Given the subjective nature of some of the categories captured under the anti-social behaviour (ASB) report, we are required to create a ‘category hierarchy’ whereby we have reportable incidents for reporting to the NTA and non-reportable.

This is based on a form of harm test whereby if an incident is deemed to pose a risk of harm to our customers or staff alike it becomes reportable E.G, ‘assault’(reportable) vs ‘Boisterous behaviour’(non-reportable). We keep a record of all reported ASB so Iarnród Éireann Irish Rail can best analyse the data provided and ensure proactive and strategic measures are taken that can be guided by this report and executed across the network to reduce the incidence of ASB to ensure safety for our customers and our staff.

The statistical data will be presented in table form, distributed across the entire rail network, and divided per region as per regional map detailed in figure 1.

**Criminal Offence & Antisocial Behaviour (NTA Reportable)**

There have been 374 incidents recorded for Q1 2026. There have been 24 assaults with 3 assaults on employees. Theft of third-party property at 41 has increased from 22 in Q1, 2025. Iarnród Éireann staff have jointly liaised with all An Garda Síochána investigations in which Formal surveillance from our assets has been forwarded promptly to same.

Iarnród Éireann staff and contracted security on board and at static station locations have advised customers via personal advice and through on boards public announcements (P.A) of vigilance regarding their personal belongings not to leave unattended. At present following Garda Investigations, with the support of Iarnród Éireann staff, Arrests have been made of Defendants that are subject of court proceedings along with bail conditions regarding the Thefts of customers properties.

Increased security patrols and detection, with additional resources seeing interventions at major terminus stations, has contributed to the increase in incidents recorded. A Surge Action Plan has partially commenced from December 2025 with increased Security teams on the Dart and Northern Lines. This increased presence has led as expected to more visibility and engagement on these lines. It has also resulted in increase in reporting of aggressive behaviours and interventions by security. We are working closely with Security Contractor to ensure targeted deployment and increased visibility and proactive patrols. IÉ Enforcement and Compliance Manager is working closely with all stakeholders in particular An Garda Síochána to maximise the benefit of Joint Operations in giving reassurance to the travelling public. With the full implementation of the surge Action Plan coming to fruition later this year enhanced safety and indeed perception of safety is expected.

**Drugs, Alcohol & Smoking related incidents.**

Of 492 incidents in this category, the Northern and DART district has the highest number with 258 (Northern) and 143 (DART) recorded.

**Trespass**

There have been 96 incidents of trespass (reportable) for Q1 2026, down from 128 in Q1 2025. Reviews of new data and trends of trespassing Hotspots along with coordinated responses/ enforcement and educational/social media programmes with public and community stakeholders been envisaged to reach the targeted audiences.

**Iarnród Éireann Security Strategy Q1 2026 update**

Iarnród Éireann/An Garda Síochána took place across all IÉ CX regions during quarter 1 2026 to discuss crime and antisocial behaviour and to plan crime intervention strategies.

An additional six Garda Response Hubs have come into operation since the beginning of 2026 bringing the total to twenty eight (28).

## RU\_Customer Safety and Security Report

The Iarnród Éireann security action plan came into operation from the end of December and concentrating on DART and Northern services with additional security resources deployed.

The new Garda/Go Safe safety cameras came into operation at Murrion Gates with its launch month March and a number of others will come into operation at identified high risk level crossings over the coming months.
